

Fire Training Requirements

11.00

Firefighters-

Six fire training's are required between January 1 and June 30 of each year
Six fire training's are required between July 1 and December 31 of each year
Total of 12 fire training's per year
One make up training is allowed per six-month period

Semi-Retired Firefighters-

Three fire training's are required between January 1 and June 30 of each year
Three fire training's are required between July 1 and December 31 of each year
Total of 6 fire training's per year
One make up training is allowed per six-month period

Firefighters on approved leave will be exempt from the requirements based on the number of months they are on leave.

Clarifications-

Fire personnel that are full time students in college (residing outside of the fire district while attending school) are exempt from the fire training requirement. It is understood that during the summer and school breaks that they will attend fire trainings as much as possible.

Fire personnel who are taking Firefighter II, Firefighter III, or Emergency Medical Technician classes are exempt from the fire training requirement for those months that they attended those training classes. To be eligible for this exemption, personnel must attend at least 75% of the scheduled classes. It is understood that attendance verification in those classes may be requested.

All firefighters are responsible for meeting the training requirements. Requests for additional training, including one make up training per six month period, will be considered on an individual basis. Requests for additional training should be made well in advance of the end of the reporting period.
